

RM-1921 19" 2U server case

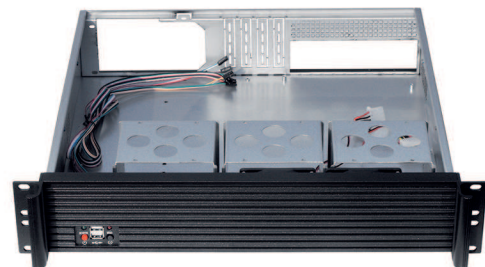

The RM-1921 is a reliable and stable 2U industrial computer chassis with 390 mm depth. It supports all micro ATX motherboards with a Dual-core / Quad-Core processor and 4 low profile add-on cards. It has a high quality aluminum front panel despite its low price. For air ventilation two 80 mm cooling fans are mounted at the front side. In addition the RM-1921 supports a standard ATX or PS/2 power supply.

Technical Data

General data

Model	RM-1921
Article no.	19201
EAN code	4250078165736
Brand	RackMax
Color/material	Black/ 1.0 mm SGCC
Form factor (1U= 1.75 Inch)	2U
Dimensions (WxHxD)	428 x 89 x 395 mm

Disk drive bays

Disk drives	2x 3.5" HDD
--------------------	-------------

Motherboard (M/B)

Form factor	Micro ATX Mini ITX
--------------------	-----------------------

Power supply

Form factor	ATX or PS/2
--------------------	-------------

Fans

Front side mounting	Mounting frames for 2x 80 mm fans (hight max. 25 mm)
----------------------------	---

Expansion slots

Number	4x low profile add-on cards
---------------	-----------------------------

Front panel

Switches and input	Power On/Off, System Reset, 2x USB 2.0 (2x USB 3.0 optional)
---------------------------	---

Displays

LEDs	Power ON / OFF HDD access
-------------	------------------------------

Scope of delivery
RM-1921

Logistical Data

Packing unit:	1 pce / carton	Dimension / article:	428 x 89 x 395 mm
Gross weight (single carton):	7 kg	Country of origin:	China
Net weight:	5,4 kg
