Internet Radio NOXON iRadio 1

- Wooden Cabinet
- 2.8" color display
- Equalizer
- Internet Radio with simple operation
- Thousands of radio stations, presorted by country and musical genres
- User-assignable preset buttons and dimmable display
- 5-day weather forecast
- Headphone output on the front
- Analog Line-Out output
- Alarm and sleep timer

Enjoy your favorite radio stations from around the world for free, presorted by country and genres, wherever you are.

Simplified operation
Thanks to its trademarked NOXON design, the rotary knob with push function lets you navigate through the different settings and stations. The ergonomic back button lets you navigate to previous settings quickly. The 5 preset buttons ensure a simple and fast switching between your individual favorite channels.

WLAN connection - uncomplicated
Establishing the internet connection is simple, similar to the connection of your Notebook to the Internet. You only need to select your router’s wifi name in the Radio menu and enter the appropriate wifi password, and your NOXON iRadio 1 connects to the Internet.

Sound of the NOXON iRadio 1
The NOXON iRadio 1 has a very warm and pleasant sound caused by the new wooden housing. If you still need more volume, you can connect the iRadio via lineout to your HiFi amplifier.

NOXON iRadio 1 - the affordable entry-level device made by NOXON.
