

CREATIVE STAGE 360

Creative Stage 360 2.1 Soundbar with Dolby Atmos

Fill the halls of your home with cinematic audio and real-life atmospheric simulation for an elevated home entertainment experience! Creative Stage 360 comes with Dolby Atmos and features a HDMI ARC port, two HDMI 2.0 ports, optical-in, and Bluetooth 5.0 technology. Surround sound is made simple at the comfort of your own home with Creative Stage 360.

DOLBY ATMOS TECHNOLOGY

Experience realistic height and spatial elements with simulated three-dimensional sound intensity, made possible by Dolby Atmos surround technology. The technology has the ability to deliver precise positional audio for lifelike sound portrayals, such as a Cheyenne attack helicopter hovering over a battlefield in a war movie. Stream your favorite contents from Netflix, Apple TV+, Disney+, HBO Max, and more with Creative Stage 360 for next-level surround immersion

MULTI-CONNECTIVITY OPTIONS

Stay connected and entertained with Creative Stage 360's upgraded host of connections. The soundbar also features a HDMI ARC port, two HDMI 2.0 ports, optical-in, and Bluetooth 5.0 technology to support all your entertainment needs. Easily set up the soundbar with a single HDMI cable via your TV's HDMI ARC port. Creative Stage 360's soundbar solution helps to reduce cable clutter while also complementing your living room in a refined, all-black design under your TV

UPGRADED 2.1 SOUNDBAR SYSTEM

The Creative Stage 360 soundbar comprises of two custom-tuned racetrack drivers and the ability to drive up to 60W RMS power as well as a long-throw subwoofer with a high-excursion driver to achieve rich, harmonious audio playback and strong thumping bass. Generating output power of up to 120W RMS, and a total peak power of up to 240W RMS, the soundbar system promises rich and robust audio output with every beat played

DUAL SOUND PLACEMENTS AND ADDED CONVENIENCE WITH IR REMOTE CONTROL

Optimize your listening experience at different distances with Creative Stage 360's dual sound placement features. Select near-field placement for setup distance that is within 3 ft / 1m, such as your desk, or switch to far-field placement via the IR remote control if your setup is beyond 3 ft / 1m. Plus, access source input selection, playback volume and bass adjustments, and more with the same remote control

SMALL IN SIZE BUT PACKS A PUNCH

Measuring in at only 56.5 cm / 22.2" wide, the soundbar has the capability of filling the halls of your house without sticking out awkwardly and stealing the attention away from the screen. Place the soundbar system directly under your TV or have it on your desktop, with the subwoofer standing at just 42.2 cm / 16.1" tall, have the best of both worlds without compromising both aesthetics and sound quality
